WELCOME

## About us...

Diversity is a treasure for our Nation. Dreams, hopes, and ambitions are powerful internal forces that will determine the educational future. While acknowledging the unique characteristics of many racial, ethnic, and cultural groups, we aim to promote a sense of unity on the basis of our shared humanity and ways of life. We believe that without such unity, the destiny of the human race is inconceivable.

In order to reform education in India in the most effective way, our objective is to promote true leadership in the sector of education. This requires understanding different circumstances, exercising extreme prudence, and paying close attention to even the smallest details of what is required to transform education in India. As children are the forces that will create the future, it is important to shape the lives of young minds with faith by encouraging hopes, developing compassion, enabling the development and purposeful expression of their creative selves.

We the **Smart Books Publishers and Distributors** are proud to mention that we have catered to this need of education over a decade through our student-friendly books and other teaching aids that are specifically designed by well educated teachers, educationists and experts in various subjects.

We aim to create a bridge connecting dreams and realities through regular effort as we believe that consistent hard work will foster fruitful results and it is through constant effort that **Smart Books** can develop best brains. Our goal is to make education accessible to everyone and provide excellent teaching resources, and services to all stakeholders in order to promote human growth and make a substantial impact on the Indian educational system.

The vivid attitude of education is to bring forth people's potential and innate, untapped traits. We aim to promote social welfare and render educational learning by working on **best quality Books and teaching aids** that are relevant and updated as per the recent requirements of the society and the Government. We develop best quality content as per the latest syllabus with trust and conviction in our hearts that correct implementation of much needed education will transform millions of lives. To foster such a high perspective, we concentrate on offering education as a creative process that enriches and transforms the student's life through our participation.

# NEW RELEASES

Genuine leadership lies in care and attention to the finest details. To know the circumstances of each and every individual and to exercise utmost care is what it means to be a true leader. We have tried our best to incorporate best principles of intellectual learning to ensure the quality of contents in accordance with new NEP guidelines to improve children's capacity for moral decision-making and emotional-social learning through the classroom environment so that our future generation is fostered as the genius of the nation. All our books promote 21st century skills, creative thinking and problem solving which are the focus of NEP 2020 & NCF 2023.

"A true leader fosters young people and spurs them on to greater heights"

Understanding how natural ecosystems work, how human civilizations affect the environment, and how the environment has influenced human cultures and artistic endeavours all fall under the umbrella of the interdisciplinary field of environmental studies. Through our NEP 2020 - & NCF 2023-aligned Books Series, we strive hard to support the learner's meaningful multifaceted future, and also encourage teachers, educators, and guardians to ensure growing multiple competencies in the learner for their bright future.

Size : 8.5 X 11 Inch

The "greatness"  
of truly extraordinary people  
lies in their appreciation  
of the "ordinary."

Children benefit from arts and crafts by developing a sense of pride and accomplishment, which boosts their self-confidence. Giving kids the freedom to make whatever they want encourages creativity. By overcoming creative hurdles, a youngster will learn to make wise and useful decisions. That is why we give more attention to Art and Craft activities for kids in our NEP-aligned Book Series. What is most strongly required of us is the imagination that can holistically appreciate the present.

"The realization of one's inner potential can only be achieved through engagement with everyday polishing of oneself."

We must send the sparks flying! From the hearts of youth!  
Using the flame within! To educate is to kindle the soul's flame!  
– Daisaku Ikeda

"The Dawn of a Century of Humanistic Education"

## Our Vision

The vibrant spirit of education is one of believing in people and in some deep, untapped quality and working to bring it out. Our vision is to foster true leadership in the education segment that entails knowing the conditions and potential of each and every individual and exercising the utmost caution while giving attention to the smallest things that are qualities of genuine leadership to transform education in India in the most effective manner.

## Our Mission

Dreams and realities are connected by a bridge that is built through effort and hard work. Those who put forth consistent effort are optimistic. And hope itself develops as a result of consistent work. Our mission is to give every stakeholder access to education, high-quality teaching resources, and services in order to foster human development and bring significant change in the Indian educational system. We strive to take actions that matter for the welfare of social education with faith and conviction in our hearts. Focus on delivering education as a creative process that brings joy and transformation to the learner's life in order to cultivate such a lofty mindset in the learner.

## Our Passion

Shaping the educational future, dreams, hopes and ambitions needs strong internal forces. They are the driving forces behind the future's creation. We can open up the lives of young minds through hope by fostering dreams, cultivating faith, and allowing their creative personalities to be nurtured well and expressed with a sense of purpose.

To encourage global citizenship, we need 21st-century skills and application of knowledge. Our NEP-based books are developed with the intention of transforming learning and developing competencies by developing teaching pedagogies and implementing in our books that enables children to develop new century skills and put them to use in real-world situations.
