

# EVS-4

## CHAPTER 14: Water In Our Life - Worksheet

### A. Tick (✓) the Correct Option

**1. Water that we cannot use for drinking is:**

- a) River water      b) Pond water      c) Sea water

**2. Water changes into water vapour due to:**

- a) Condensation      b) Evaporation      c) Melting

**3. The main source of fresh water is:**

- a) Rain                  b) Ocean                  c) Sea

**4. Water vapour changes into water droplets by:**

- a) Evaporation      b) Condensation      c) Filtration

### B. Fill in the Blanks

1. Water covers \_\_\_\_\_ of the Earth's surface.
2. The process of changing water into vapour is called \_\_\_\_\_.
3. The process of changing vapour into water is called \_\_\_\_\_.
4. We get most of our water from \_\_\_\_\_.
5. \_\_\_\_\_ is the main source of drinking water.

### **C. Match the Columns**

- |                   |                    |
|-------------------|--------------------|
| 1. Evaporation —  | (a) Water droplets |
| 2. Condensation — | (b) Heating water  |
| 3. Rain —         | (c) Clouds         |
| 4. Filtration —   | (d) Cleaning water |

### **D. True or False**

1. Water is needed by all living beings. \_\_\_\_\_
2. Condensation happens due to heating. \_\_\_\_\_
3. Rainwater is the main source of drinking water. \_\_\_\_\_
4. We must save water. \_\_\_\_\_

### **E. Answer the Following**

1. Why is water important?
2. What is evaporation?
3. What is condensation?
4. How does rain form?
5. Write any three ways to save water.

## **F. Activity**

Make a water cycle diagram and label evaporation, condensation, and rain.
